Career Objective

I am a newly graduated software engineer with strong problem-solving skills, an expansive depth of computer science knowledge, and tenacious energy seeking a software engineering role for my career. I have extended myself to many branches of computer science in order to have the necessary knowledge to begin my career and to work on truly innovative projects. I am excited to provide my computer science knowledge and programming skills towards your business's programmatic development.

Education

California State University - Long Beach, CA
Bachelor of Science in Computer Science

Date Graduated: December 2023
GPA: 3.225

Skills

- Python, Java, C, C++, Dart
- HTML, CSS, JavaScript
- Server/Client code, APIs, RESTful services
- Security, Linux, VirtualBox, Networking, Docker
- AWS, Google Cloud, Terraform
- GitHub, Jenkins, BitBucket, Jira
